

# 2021 Summer Nuclear Engineering Research Experience for Undergraduates

**May 24 – July 30**

**\$15/hr for 30-40 hours/week**

**Learn more: [sites.psu.edu/ugrnuce/](https://sites.psu.edu/ugrnuce/)**

The Ken and Mary Alice Lindquist Department of Nuclear Engineering will hold its 2021 Research Experience for Undergraduates (REU) program from May 24 to July 30. Participants will complete a 10-week research project under the guidance of a faculty mentor and will present their work at the end of the summer.

**Engineering undergraduate students with an interest in nuclear engineering should [apply](#) by March 31.**

This program is planned as a mixed-mode research experience, but the format may shift to virtual depending on safety and health regulations pertaining to COVID-19. For more information about how Penn State is responding to COVID-19, please visit the University's [website](#).
